

JOURNAL OF NEUROLINGUISTICS

An International Journal of Experimental, Clinical and Theoretical
Research on Language and the Brain

Editor

H. COHEN, Ph.D., Max Planck Institute for Evolutionary Anthropology, 04103 Leipzig, Germany. E-mail: henri_cohen@eva.mpg.de

Board of Editors

Dr S. AVRUTIN, Utrecht University, The Netherlands
V. BALASUBRAMANIAN, Seton Hall University, U.S.A.
R. BOROWSKY, University of Saskatchewan, Canada
Z. BREZNITZ, University of Haifa, Israel
A. CANGELOSI, University of Plymouth, U.K.
H. CLAHSSEN, University of Essex, U.K.
Prof. C. CODE, University of Exeter, U.K.
Dr D. COPLAND, The University of Queensland, Australia
A. COSTA, Universitat de Barcelona, Spain
M. DELAZER, Klinik Fur Neurologie, Austria
Dr G. GAINOTTI, Universita Cattolica del Sacro Cuore, Italy
Dr Y. GRODZINSKY, McGill University, Canada
Dr J. M. GURD, Neuropsychology Unit, Radcliffe Infirmary, U.K.
Dr F. ISEL, CNRS-Université Paris Descartes, France
M. LAINE, Åbo Akademi University, Finland
P. LI, University of Richmond, U.S.A.
Prof. J.-L. NESPOULOUS, Université de Toulou-le Mirail, France
L. NICKELS, Macquarie University, Australia
Prof. M. PARADIS, McGill University, Canada
D. PERANI, CNR, Italy & Università Vita-Salute San Raffaele, Italy
S. PINTO, CNRS, France
D. POEPEL, New York University, U.S.A.
Prof. C. SEMENZA, University of Trieste, Italy
Prof. B. STEMMER, Université de Montreal, Canada
L.-H. TAN, University of Hong Kong, China
D. TITONE, McGill University, Canada
Prof. H. A. WHITAKER, Northern Michigan University, U.S.A.

Aims and Scope

The *Journal of Neurolinguistics* is an international forum for the integration of the neurosciences and language sciences. JNL provides for rapid publication of novel, peer-reviewed research into the interaction between language, communication and brain processes. The focus is on rigorous studies of an empirical or theoretical nature and which make an original contribution to our knowledge about the involvement of the nervous system in communication and its breakdowns. Contributions from neurology, communication disorders, linguistics, neuropsychology and cognitive science in general are welcome. Published articles will typically address issues relating some aspect of language or speech function to its neurological substrates with clear theoretical import. Interdisciplinary work on any aspect of the biological foundations of language and its disorders resulting from brain damage is encouraged. Studies of normal subjects, with clear reference to brain functions, are appropriate. Group-studies on well defined samples and case studies with well documented lesion or nervous system dysfunction are acceptable. The journal is open to empirical reports and review articles. Special issues on aspects of the relation between language and the structure and function of the nervous system are also welcome.

Author enquiries: For enquiries relating to the submission of articles (including electronic submission) please visit this journal's homepage at <http://www.elsevier.com/locate/jneuroling>. Contact details for questions arising after acceptance of an article, especially those relating to proofs, will be provided by the publisher. You can track accepted articles at <http://www.elsevier.com/trackarticle>. You can also check our Author FAQs at <http://www.elsevier.com/authorFAQ> and/or contact Customer Support via <http://support.elsevier.com>.

Publication information: *Journal of Neurolinguistics* (ISSN 0911-6044). For 2012, volume 25 (6 issues) is scheduled for publication. Subscription prices are available upon request from the Publisher or from the Elsevier Customer Service Department nearest you or from this journal's website (<http://elsevier.com/locate/jneuroling>). Further information is available on this journal and other Elsevier products through Elsevier's website: (<http://www.elsevier.com>). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.
